

COURSE BROCHURE & SYLLABUS

Machine Learning Foundations.

A practical introduction to artificial intelligence. Learn Python, the data science stack, supervised and unsupervised learning, and build real ML models from the ground up.

- Self-Paced
- 12 Weeks
- Intermediate Level
- Lifetime Access
- Certificate on Completion

₦75,000

One-time payment · Full lifetime access to course materials

What's Included

- ✓ Weekly lessons, classwork & assessments
- ✓ Auto-graded quiz at the end of every week
- ✓ Direct "Request a Call" support if you get stuck
- ✓ Self-paced – no deadlines, learn on your schedule
- ✓ Built and taught by FSLabs' own engineers

Core Topics

- PYTHON
- NUMPY
- PANDAS
- DATA VISUALIZATION
- SUPERVISED LEARNING
- UNSUPERVISED LEARNING
- NEURAL NETWORKS
- ML PROJECTS

12-Week Roadmap

WEEK 01 LIVE NOW	Python Foundations for Data Science Variables, control flow, functions, data structures, and your first introduction to NumPy arrays. Includes: 4 lessons · classwork (grade calculator) · assessment (find the bug) · 15-question graded quiz
WEEK 02 COMING UP	Pandas & Data Wrangling Loading, cleaning, and shaping real datasets.
WEEK 03 COMING UP	Data Visualization Turning raw numbers into charts that actually tell a story.
WEEK 04 COMING UP	Statistics for ML The statistical foundations every model relies on.
WEEK 05 COMING UP	Supervised Learning – Regression Predicting continuous values from data.
WEEK 06 COMING UP	Supervised Learning – Classification Predicting categories, from spam filters to fraud detection.
WEEK 07 COMING UP	Model Evaluation & Validation Knowing whether a model is actually good, not just confident.
WEEK 08 COMING UP	Unsupervised Learning – Clustering Finding structure in data with no labels at all.
WEEK 09 COMING UP	Feature Engineering The unglamorous work that makes or breaks a model.
WEEK 10 COMING UP	Neural Networks Introduction How neural networks actually work, from first principles.
WEEK 11 COMING UP	Building & Training Your First Model End-to-end, from raw data to a trained model.
WEEK 12 COMING UP	Capstone ML Project A complete machine learning project, built and evaluated by you.
