Week 1 live now:

HTML & CSS Foundations

Prompt Engineering

BEGINNER LEVEL

₦40,000

LLM FUNDAMENTALS

TOKENS & CONTEXT

PROMPT DESIGN

ZERO/FEW-SHOT

Week 1 live now:

How LLMs Actually Work

How it works

Every course is self-paced – there's no cohort start date and no deadlines. Week 1 is live and fully built for every course today; later weeks publish progressively as they're completed. Every week includes real lessons, classwork, a graded assessment, and a 15-question auto-graded quiz. Stuck on something? Use the in-app "Request a Call" button to get direct support.
