OFFER OF EMPLOYMENT — CONTENT STRATEGIST

Dear Samiat,

Following our review of your application and the discussions that followed, we are pleased to offer you employment with **Folub & Samuel Labs Limited** (“FSLabs” or “the Company”) in the position of **Content Strategist**, on the terms set out in this letter.

Your record made the decision straightforward. Growing an audience from 137 to 14,700 followers and from four views to over 1.1 million views inside sixty days is not luck — it is strategy, executed consistently. Building a content function from scratch at Carebrij tells us you can do the harder thing: turn complicated ideas into something people actually want to read. We build technology and cybersecurity products, and our biggest gap is not engineering — it is being understood. That is the gap we want you to close.

1. POSITION AND TERMS OF ENGAGEMENT

POSITION	Content Strategist
FUNCTION	Media & Communications
REPORTS TO	Adeseko Samuel — Co-Founder & Chief Technology Officer, who also holds the Head of Media function
EMPLOYMENT TYPE	Full-time
WORK ARRANGEMENT	Fully remote, within Nigeria. Occasional in-person sessions may be convened with reasonable notice.
COMMENCEMENT DATE	3 August 2026
WORKING HOURS	Monday to Friday, with core availability between 9:00 a.m. and 5:00 p.m. (WAT). We care about output and responsiveness, not clocked hours.
LEAVE	Paid annual leave in accordance with the Company’s leave policy, and in no event less than the minimum prescribed by the Labour Act
TOOLS & EQUIPMENT	The Company provides the accounts, software licences, and working tools reasonably required for the role

2. PURPOSE OF THE ROLE

The Content Strategist owns how FSLabs sounds and what FSLabs publishes. You will set the editorial direction across the Company's brands and products — the FSLabs corporate brand, FS Exchange, FSLabs Training, and FOLUB Builders — and translate technical work in software engineering and cybersecurity into clear, credible, audience-first content that earns attention and brings in qualified enquiries. You are not a posting assistant. You are the person who decides what story we are telling, to whom, and why it will work.

3. KEY RESPONSIBILITIES AND JOB ROLES

3.1 CONTENT STRATEGY AND PLANNING

- Own the Company's content strategy across all brands, products, and channels, reviewed quarterly against business objectives.
- Define target audiences and content pillars per brand, and build and run the monthly content calendar.
- Audit content periodically, retire what underperforms, and reallocate effort toward what demonstrably works.
- Advise leadership on positioning, messaging, and launch sequencing for new products and services.

3.2 WRITING, EDITORIAL, AND BRAND VOICE

- Research, write, and edit across formats: articles, explainers, case studies, newsletters, landing-page and product copy, scripts, and campaign copy.
- Translate technical subject matter — security incidents, engineering decisions, product mechanics — into accessible narrative without diluting accuracy.
- Interview internal engineers, security staff, and clients to source original material rather than recycling industry commentary, fact-checking every claim and verifying technical statements with the Chief Technology Officer before release.
- Author and maintain the FSLabs brand voice and editorial style guide, and serve as final editorial gate on anything published under a Company brand.

3.3 SOCIAL MEDIA AND COMMUNITY GROWTH

- Plan, produce, schedule, and publish across the Company's social platforms — currently LinkedIn, Instagram, X, and TikTok — holding a consistent cadence through quiet periods as well as launch periods.
- Grow reach, engagement, and qualified following through deliberate, tested formats rather than volume alone.
- Manage community interaction, escalating commercial leads to the Business Lead and security-sensitive enquiries to the Chief Technology Officer.

3.4 SEO AND ORGANIC DISCOVERABILITY

- Conduct keyword and search-intent research for the Company's websites and product pages, and maintain a rolling SEO content roadmap.
- Optimise on-page content — titles, meta descriptions, headings, internal linking — working with the technical team on page structure and metadata.

3.5 CAMPAIGNS AND COMMERCIAL SUPPORT

- Develop content-led campaigns tied to defined outcomes: enquiries, waitlist sign-ups, training enrolments, and platform registrations.
- Write and maintain email and newsletter sequences for onboarding, nurture, and announcement flows.
- Support the FSLabs Training and FS Exchange product lines, and produce content for sales and partnership conversations.

3.6 MEASUREMENT, COLLABORATION, AND GOVERNANCE

- Define the metrics that matter per brand and channel, set baselines in the first month, and report monthly to the Chief Technology Officer with a recommendation, not raw numbers alone.
- Run structured tests on formats, hooks, and cadence, and fold results back into strategy.
- Work with engineering, security, design, and business functions to source accurate material and align messaging; brief any freelancers engaged to support production.
- Treat client and system information as confidential by default, and keep content records organised and accessible as Company property.

4. DELIVERABLES IN THE FIRST NINETY DAYS

BY DAY 30	Content audit of all existing Company channels; documented brand voice and editorial style guide; agreed metric baselines per channel.
BY DAY 60	A live, running content calendar across all active brands; consistent publishing cadence established; first monthly performance report delivered.
BY DAY 90	One content-led campaign executed end to end with measured results; twelve-month content strategy presented to leadership; next-quarter growth targets agreed with the Chief Technology Officer.

5. GENERAL TERMS AND CONDITIONS

- 1. Notice period.** Either party may terminate this employment by giving one (1) month's written notice, or payment in lieu of notice. Nothing in this clause limits the Company's right to summary dismissal for gross misconduct.
- 2. Confidentiality.** You will have access to non-public information concerning the Company, its clients, its systems, and its security posture. You agree to keep all such information strictly confidential, during and after your employment, and to publish nothing relating to clients, systems, incidents, or internal operations without prior written approval. You will execute the Company's standard non-disclosure agreement on or before your commencement date.
- 3. Intellectual property.** All content, copy, strategy documents, calendars, and other materials created by you in the course of your employment, and all intellectual property rights in them, vest in and belong exclusively to the Company. You retain the right to reference your work in a professional portfolio, subject to the confidentiality obligations above and to prior written approval of the specific items shown.

- 4. Outside engagements.** The Company acknowledges your existing personal brand and independent writing, including *Diary of A GenZ* and *The Abdulahi Samiat Brand*, together with your volunteer commitments. You may continue these, provided they are disclosed in writing, do not compete with the Company, do not use Company confidential information or resources, and do not interfere with your duties here. Any new paid engagement in a related field requires prior written consent, which will not be unreasonably withheld.
- 5. Policies and information security.** Your employment is governed by this letter and by the Company's handbook and policies as issued from time to time. As a cybersecurity firm we hold ourselves to our own standards: you agree to comply with our information-security, device, and acceptable-use policies, including multi-factor authentication on all Company accounts.
- 6. Documentation.** This offer is conditional upon your presenting, on or before your commencement date, valid identification, evidence of your stated qualifications, and the details of two referees.
- 7. Studies.** The Company notes that you are concurrently pursuing a Bachelor of Nursing Science at Fountain University, Osogbo; the remote arrangement is intended to accommodate this. You agree to give reasonable notice of examination periods so publishing schedules can be planned around them.
- 8. Governing law.** This offer and any resulting contract of employment are governed by the laws of the Federal Republic of Nigeria, including the Labour Act.
- 9. Entire agreement.** This letter constitutes the entire agreement between the parties on the subject of your employment and supersedes all prior discussions and representations.

Acceptance. Kindly confirm by signing and returning a copy of this letter on or before **10 August 2026**, failing which this offer lapses without further notice. Please raise any question on these terms with the undersigned before signing.

Samiat, we are glad to be making this offer, and we intend to give you the room to do your best work here.

Yours sincerely,

Adeseke Samuel

CO-FOUNDER & CHIEF TECHNOLOGY OFFICER
HEAD OF MEDIA & COMMUNICATIONS
FOR AND ON BEHALF OF FOLUB & SAMUEL LABS LIMITED

ACKNOWLEDGEMENT AND ACCEPTANCE

I, **Abdulahi Samiat Oyinkansola**, have read and understood the terms set out in this letter, and I accept employment with Folub & Samuel Labs Limited as Content Strategist on those terms.
